#WASHED is an award-winning indie television series based in Dallas, Texas. Season 2 is set to debut Summer 2020 with ten, half-hour episodes featuring an ensemble cast of #WASHED (up) millennials. At a crossroads in life, these multidimensional, and often conflicted characters face a harsh reality: too old to JUST be dreamers, yet young enough to make those dreams a reality. On the cusp of achieving their dreams, life altering choices raise the stakes.

A unique take on the urban coming-of-age story, #WASHED packs a punch as the content hits close-to-home in a relatable, hilarious and dramatic fashion. Director Jerod Couch, 2x regional Emmy Winner, partnered with a 150+ emerging filmmakers to produce a dynamic second season that promises to make waves across the country.
